PAIN AND TERROR

Drew Heart-rending Cries From the Bazaar Victims

As They Struggled Midst Flame and Smoke.

Over One Hundred Persons Lost Their Lives,

While Double That Number Was Maimed.

Sickening Sights Attending the Rescue and Removal of the Bodies From the Ruined Building.

PARIS, May 5.—The terrible fire at Grand Bazaar de Charite, a temporary wooden structure about 100 yards long and sixty yards wide, erected in the Rue Jean Goujon, for the annual charity fair, of which all of the most prominent society ladies of Paris are patronesses, has thrown the French capital into mourning. The conflagration, which broke out shortly after 4 o'clock yesterday in the Kinematograph booth, near the stall of the Duchess D'Uzes, while from 1,500 to 2,000 people were present, as mentioned in yesterday's telegrams, is believed to have caused the loss of over 200 lives.

As this dispatch is sent, early Wednesday morning, 111 charred corpses have been recovered, together with twelve portions of bodies, the identity of which may never be established.

Frequently as many as a dozen hearses were gathered together in the court yard of the Palais de L'Industrie and opposite the entrance of the building hundreds of coffins were ranged, ready to receive the bodies of those who had perished in that terrible stampede and which had subsequently, in most cases, been charred beyond recognition.

The scenes witnessed among those who remained about the fatal spot throughout the night, unable to tear themselves away indifferent to the entreaties of their friends or relatives, baffles description. Upon several occasions a distracted father or mother, half mad with grief, would endeavor to force a way through the line of soldiers or the inner line of police drawn about the blackened ruins. Children were there weeping for lost parents, and the old and the young and the middle aged joined in the murmurs of lamentation, and exchanged hopes and fears.

So far as known the following bodies have been recognized: Mlle. Henrietti Hinlhedal, the Baroness Elizabeth Martin, Vicomtesse Marie Bonnevale, Sister Guinoux, the superior of the Sister of the Convent of St. Vincent de Paul, at Rainci; Mme. de Grancy, Comtesse St. Pierre; Baronet St. Didier, Mme. Laurent Cosselin, Mlle. Chevigny, Mme. Flores, wife of the Spanish consul; Comtesse Mirimel, Comtesse Bruslerville, M. Victor Cosselin, Sister Leonie Guillaume, Mme. Hausemann, Mme. Schlumberger, Comtesse Humolstein, Marquise Des Maison, Mme. Ventimesnil, Mme. Hockier, wife of the well known Russian banker, Mme. Poitevin, Mme. Jacques Haussmann, the daughters of M. Shevill, Mme. Mandat Grancy.

Among the seriously injured are the following: Duchess De LaTorre, Comtesse De Rancey, Comtesse De Mondlair, Comtesse De Davisin, Mme. Macod, Mme. Recaimier, Mme. De Laum, Mme. Hyzter, Mme. Edouard Andre, Mme. De LaTour Dupin, Mme. Malezieux, Mme. Le-Febvre.

Many tales of despair are told. Mme. Fabre was saved by her husband who as soon as he had placed her in safety leaped backed to the burning building in order to save his daughter. He had clasped the girl in his arms and had nearly reached the door when they were caught in the flames and Fabre and daughter perished before the eyes of the agonized mother. The Baron De Macau had a similar experience. Seven times he penetrated the flaming ruins in search of his sister, each time to save another and only to see his sister, later, fall before his eyes, when he no longer had strength to lift her. The Marquise De Aigle was rescued by a fireman after she had given herself up as lost. All her friends had fallen around her and she was on her knees in prayer awaiting death when a fireman caught her up and succeeded in extricating her, though she was frightfully burned.

The ladies who succeeded in escaping rushed shrieking madly into the court yards of adjoining houses, wildly beseeching help. The fact that the faces and heads of the dead were so horribly charred and disfigured is explained by the fact that the capes worn were generally of flimsy material and were the first articles of apparel to catch fire. The Marquise LaBorese is in a critical condition. Mme Mathieyle had her whole body blistered. Mme La Mollio was severely burned.

So far there is only one American victim, a Miss Parker, or Carks. The correspondent of the Associated Press is making inquiries on the subject. There are still forty-six bodies which have not been identified, in addition to a mass of heads, limbs, etc. Linen belonging to a body recovered is marked "L. T. Near."

The bazaar was opposite Baron Rothschild's stables. One of the grooms saved many of the people whose clothing were in flames by drenching them with the stable hose. General Monnier, with his clothes ablaze, rushed into the stable yard and plunged into a tank of water.

Shortly before 3 o'clock this afternoon the police officials announced that sixty-three corpses had been officially identified and it was also officially stated that the total number of dead would not exceed 111.

During the afternoon the bodies of the Duchesse De Alencon and six others were identified. The Duchesse De Alencon was the sister of the empress of Austria and of the wife of Prince Ferdinand, of Orleans. She was a duchesse of Bavaria and was born in 1847 and married in 1868. Her daughter, Princess Louise, is married to Prince Alphonso of Bavaria, and her son, Prince Philip, is the husband of Princess Henriette, of Belgium.

The former queen of Naples is one of her sisters. The duchesse was a woman of great wealth and one of the most prominent ladies of France. The remains of the duchesse were identified by her dentist, who examined the teeth of a charred body which was believed to be hers.

Among the last to escape from the burning building was the Baroness De Rueter, formerly Miss Beatrice Potter, of Philadelphia. The Grand opera house, the Opera Comique, the Theatre Francais and the Odeon will be closed tonight as a mark of respect for the families of the victims.

CONVICTED.

John P. Kunze is Guilty of Betraying Confidence.

CHICAGO, May 5.—John P. Kunze, "the little German" of Cronin trial fame, was convicted in Judge Payne's court today of operating a confidence game. The jury fixed his punishment at imprisonment in the penitentiary. He will be given an indeterminate sentence. A peculiar coincidence in connection with Kunze's conviction today is the fact that the murder of Dr. Cronin of which he was once accused occurred eight years ago last night.

BOTH MISSING.

Likewise the Funds of Patrons and Friends.

A. G. Fontaini and George C. Thompson Skip Out With Money Not Their Own.

PITTSBURGH, Pa., May 5.—A. G. Fontaini, who came here from New York six months ago and opened an Italian savings bank, on Penn avenue, has disappeared. The banking room, which had been fitted up in luxurious style, has been dismantled and the name removed from the door. The bank did a large business, the deposits, it is claimed, exceeding $16,000 a month. Twelve warrants for embezzlement have been sworn out for his arrest. Besides the individual depositors four societies kept their funds in the bank.

PHILADELPHIA, May 5.—The report of the expert accountant who has been examining the books of the Surety Building and Loan association shows a shortage of $22,000, instead of $6,000, as was at first supposed. The secretary of the association, George C. Thompson, mysteriously disappeared a few weeks ago, upon the eve of a contemplated investigation of his books by the state bank examiner. Nothing has been heard of Secretary Thompson since he left the city. The association was one of the oldest in the city.

Officers Beaten.

MARSHFIELD, Iowa, May 5.—While trying to disperse a mob of drunken tramps at a brewery last night, Chief of Police A. F. Gerwing sustained a terrible gash in the abdomen, and Fred Meyers, a brewery employe, was severely injured. Recovery is doubtful. Three of the tramps were captured.

Johnson Hanged.

SOMERVILLE, N. J., May 5.—Jacob S. Johnson, colored, an ex-preacher, was hanged here today. He died protesting his innocence. The conviction was a case of circumstantial evidence, Johnson being charged with murdering Annie Beckman, a woman who had lived at his house, and whose body was found on September 12, 1896, bearing evidences of strangulation.

WESTWARD HO.

Reuben Frisbie Was On His Way to a Wild Country.

Brace of Pistols, a Dime Novel and Thirty Cents Comprised His Outfit—The Police Head Him Off.

Master Reuben Frisbie has had a much planned journey of exploration cut short by the police of this city. Tired of the metropolitan life of Van Wert he started out to find Chicago, which, to his vivid imagination, was a flourishing mining camp on the Illinois border. He left home yesterday, and as he is now going on fifteen, he felt that he was well able to take care of himself. He had in his possession two revolvers, thirty cents and a novel, entitled, "Willie, the Boy Scout; or a Young Hero's Struggle in the West." The police had received notification from the lad's father to be on the lookout and Officer Paul caught him this afternoon in the act of alighting from a freight train.

ONLY A JAG.

An intoxicated individual giving the name of Frank Miller was taken in by Officer Dickson today at the corner of Berry street and Maiden lane. The man said he had no friends, no money, or no work—only a jag. He was locked up.

The Rats and the Missing Check.

A remarkable incident is brought to our notice by the Bristol post office, and, what is more, it is a story with a moral. Some days ago a letter containing a check for upward of £300 was posted to a gentleman's business address in the city, and, although there was proof that it was delivered the same evening, the addressee complained that the important missive had not reached him. Subsequently, however, it occurred to him that as his business premises were infested with rats, and as everything put through the aperture in the door, in the absence of a letter box, dropped to the floor, the postal authorities might not, after all, be responsible for the strange disappearance of the letter. A search which he instituted was completely successful. On looking behind a corn bin he discovered to his astonishment two huge rats actually fighting for the possession of a dust besmeared envelope, which on being opened was found to be none other than the one that contained the check.—Bristol Mercury.

LOTS OF SMOKE,

Also Some Excitement and a Little Fire at the Bee Hive.

Prompt Action of the Fire Department Prevents a Disastrous Conflagration in the Heart of the City.

One of the cash boys of the Bee Hive dry goods establishment was sent to the basement this morning to procure some cotton batting from the "batting room," a compartment partitioned off at the rear. The gas was not lit and the boy lighted a paper to see his way through. He accidentally dropped the burning brand in a box containing the combustible material, which took fire and spread rapidly. By the time the alarm was sent in smoke was pouring into the store room above in dense volumes and the situation had an extremely threatening look. Chief Hilbrecht and his men did efficient work, however, and the blaze was subdued before serious damage was done in the "batting room," but it is supposed that the loss to the finer goods above will be considerable.

Theodore Frank, who manages the business, stated to a SENTINEL reporter that he could not estimate the loss yet. The Bee Hive is owned by Messrs. Rothschild, and they have the loss covered by insurance.

HESSIAN FLY.

J. LeFeber Reports the Invasion of the Dreaded Pest.

He Comes to Fort Wayne to Submit Specimens of the Insect to Zoologists for Confirmation of His Opinion.

J. LeFeber, a grain buyer for the extensive establishment of Robert Lindblom & Co., of the Chicago Board of Trade, is a visitor in the city today. He has in his possession specimens of an insect which infests the wheat in the country of western Ohio, and not far from Allen county. He thinks it is the Hessian fly, that dreaded pest which has caused such devastation in this section at different periods. Mr. LeFeber says that whole fields are being laid waste by the insect, and that farmers are greatly worked up over its presence. He asked Dr. Drayer, the city bacteriologist, to examine the insects, but the doctor referred him to Dr. Crull, who is eminent authority upon zoological matters.

SENSATIONAL CHARGES

Brought to Light in Chicago Against Prominent Men.

CHICAGO, May 5.—Sensational charges of proprietary medicine counterfeiting have been brought to light in Chicago by the indictment by the federal grand jury of Dr. John Flood, H. Page Guyton and E. C. Bottum. Guyton is the western agent of an ice refrigerating manufacturing company, of New York city, and a man of business prominence. Bottum sells druggists' supplies. He and Dr. Flood have resided in Chicago for years. Mr. Guyton has been a president of the city for only a few months. Mr. Bottum was arrested upon a capias and taken to jail in default of $2,500 bail. Dr. Flood has been ill at his home for a week and permitted to remain there in charge of an officer. Guyton is not at present in the city. The charge against the indicted men is conspiracy, counterfeiting labels and trade marks and obtaining money under false pretenses in connection with the manufacturing and offering for sale a French proprietary medicine. The investigations have developed the fact that the scheme has extensive ramifications, involving a number of persons in addition to those indicted and including the counterfeiting of several other proprietary medicines. The friends of Dr. Flood express confidence in his innocence.

WILLIAM J. BRYAN

Has Been Suffering From His Injuries for Some Time.

LINCOLN, Neb., May 5.—William J. Bryan is gradually recovering from the injuries he received at St. Augustine, Fla. The bruises were more serious than at first thought, and have been slow in healing. His mail still occupies all his time during the day but he reserves the evening for reading.

Forest Fires.

DULUTH, Minn., May 5.—Forest fires are raging unabated in this part of Minnesota and they are dangerously near this city. The fire department has been called on for assistance by the people in outlying districts. The pest house and the poor house caught fire twice but the flames were subdued by the firemen before much damage was done. Three houses on the outskirts of the city were destroyed and some stock killed. As far as known there has been no loss of life. Word has been received from over the Mesaba and Vermillion ranges to the effect that fires are raging in all directions.

Kewanna Bank to Quit.

WABASH, Ind., May 5.—The Citizens' State bank at Kewanna has decided to go into liquidation, business having been unprofitable for the last three years. Depositors will be paid in full, and stockholders will lose little.

Guilty of Murder.

PONCA, Neb., May 5.—Dentist J. S. Goodmanson has been found guilty of murder in the first degree and his punishment fixed at imprisonment for life. Goodmanson was charged with the murder of his wife by administering poison last summer in his office at Perdy. The body was exhumed and a post mortem held. It resulted in Goodmanson's arrest and conviction.

PASTOR HONORED.

Quarter Century Celebration of Dr. Moffat's Ministry.

Hundreds Call to Congratulate Him—Evidences of the Love of His People of Their Pastor.

The reception tendered Rev. Dr. D. W. Moffat at the First Presbyterian church last evening, on account of the twenty-fifth anniversary of his pastorate in this city, was an interesting affair and largely attended, nearly a thousand people visiting the rooms during the hours between 8 and 10 o'clock and extending the hand of friendship to Dr. Moffat in congratulation, commendatory words of his services in the past as pastor and citizen and well wishes for his future.

The guests were received in the rear parlors of the church by Dr. and Mrs. Moffat, Mr. and Mrs. Sam C. Moffat and Miss Mary Moffat. Mr. and Mrs. B. F. Ninde were not present on account of the indisposition of Mrs. Ninde.

After the greetings the visitors passed into another room, where refreshments were served by the ladies of the church. During the entire evening the auditorium was open and an organ concert was given by Mrs. Frank Stouder, Miss Tillie Lindeman and Prof. C. F. W. Meyer.

About half past 9 o'clock the session of the church gathered about Dr. and Mrs. Moffat, and W. H. Hoffman, in behalf of the congregation, presented them with a certificate of deposit for $585. In the envelope was an announcement from the board of trustees that Dr. Moffat's salary had been increased from $2,800 to $3,000 per annum, dating from January last. Miss Eugenie Fields, in behalf of Westminster seminary, presented a handsome edition of D'Amici's "Spain," in two volumes. Dr. Moffat responded in a short address appreciative of the love and esteem shown in these gifts.

Many of the clergymen of the city were present. Invitations were sent to thirty-five. Those who were able to attend were Rev. Dr. J. M. Boggs, Third Presbyterian church; Rev. J. L. Leeper, Westminster; George E. Davies, Bethany Presbyterian; Rev. A. W. Seabrease, Trinity Episcopal; Rev. Samuel Wagenhals, Trinity English Lutheran; Rev. H. W. Bennett, Wayne street M. E.; Rev. J. S. Ainslie, Plymouth Congregational; Rev. Frederick Cohen, Achduth Vesholom temple; Rev. G. W. Brown, A. M. E.; Rev. M. C. Cooper, St. Paul M. E.; Rev. E. T. Albertson, Trinity M. E.

Regrets were received from Rev. L. L. Henson, First Baptist church; and Rt. Rev. J. H. Brammer, vicar general of the diocese of Fort Wayne, and Rev. Dr. H. W. Bennett, Wayne street M. E. church.

A GOOD MEETING.

Secretaries Wight and Burns Talk of Their Trip

To Mobile, Ala., Where the National Y. M. C. A. Meeting Was Held—A Conference at Selma.

Secretary Wight, of the City Y. M. C. A., and Secretary Burns, of the Railroad department, are greatly pleased with the results of the recent Y. M. C. A. meeting at Mobile, and Selma, Ala., which they attended a few days ago.

In the hospitable city of Mobile was convened the thirty-second International convention of the Young Men's Christian Association of North America, with Major Hardie, of Birmingham, Ala., a confederate officer, as president of the convention. The attendance was very large, the sessions being held in the largest auditorium in the city, which was crowded to the doors at every session. The convention was marked for its deep spiritual power. Rev. C. S. Scofield, of Mr. Moody's church, at Northfield, Mass., gave Bible readings at the opening of each session, which proved to be one of the best hours in the convention. Over $13,000 was raised for the work in this country and foreign lands. From Mobile the general secretaries and physical directors, numbering nearly 300, went to Selma for a three days' conference pertaining to the peculiar work which devolves upon these workers. This was the grandest conference ever held, which was evinced by the deep spirit which pervaded the sessions. Secretaries Burns and Wight attended, Mr. Wight being a member of the executive committee, which had much to do with the success of the conference.

BEATS THE CINCH BUG.

A Small Worm Is Rapidly Destroying Wheat.

LIGONIER, Ind., May 4.—The wheat pest which has been working great havoc in southern Indiana has made its appearance in northern Indiana and threatens great damage to the crop. It is a very small worm which does its deadly work by boring holes in the roots of the plant, and it is said by farmers to work greater destruction than the cinch bug or Hessian fly.

IT IS WONDERFUL.

Dr. Rosenthal Exhibits His New X Rays Machine.

W. J. Holt and Henry Wichman Are Subjects of Interesting Experiments—A Great Aid to Science.

An interesting scientific experiment conducted by means of X-rays was held in Dr. Maurice Rosenthal's office yesterday afternoon, the subject being W. J. Holt. A few years ago Mr. Holt was accidentally injured by a bullet which entered his back near the spine. The leaden missile was never located, and did not give him trouble until lately, when pains in the lower part of the abdomen led him to think that the long lost bullet was the root of the evil. It was to ascertain to a certainty if this was the cause that the experiment was made.

The photograph taken by the rays has not been developed and the result is not known. If the bullet is proven to be in another part of the body another test will be made.

Dr. Rosenthal possesses a fine apparatus for producing the X rays. It is a "static current" machine and was made under his directions. The doctor has taken radiographs in a number of cases with success that has led him to a solution of complications. One case in particular was that of Henry Wichman, a farmer, who suffered a compound fracture of his leg last November. The injury failed to get well as it should and the patient was brought to Dr. Rosenthal, who discovered under the rays a diseased condition of the bone. He performed an operation and removed the dead bone, causing a speedy recovery. Intimate friends of the doctor have enjoyed a number of tests as performed by him.

But the Neighbors Kept Bringing Them On—Hettler Given a Heavy Fine for Insulting a Woman.

Gottlieb Hettler is a resident of 84 Charles street, and the Molitor family are near neighbors. Last evening Mr. Hettler insulted Mrs. Molitor by applying to her a name that reflected on her character. Mrs. Molitor may not be a "new woman" in the artistic sense, but she is just new enough to handle a cowardly man without the help of anybody. Moreover, she is a respectable woman. She possessed the pluck to go after the defamer of her character with a club last evening, and that burly individual was made to think that he had run against a Kansas cyclone, or something equally as lively. When Mrs. Molitor used up one club the neighbors brought her more and the conflict might have gone on indefinitely, but for the timely arrival of Sergeant Harkenrider, who placed Hettler under arrest.

This morning at police court fully a dozen neighbors rallied around Mrs. Molitor and told Mayor Scherer all the bad things they knew about Gottlieb, among other statements being one to the effect that he frequently come home badly intoxicated, and quarrels with anybody and everybody. The defendant had Attorney Franco to plead his case, but it was useless. There was an overpowering chain of evidence to show that Hettler deserved the thrashing Mrs. Molitor gave him, and a little more. So Mayor Scherer imposed a fine of $20 and costs, which at last accounts the prisoner was trying to raise.

BIG DAMAGES

Claimed by Kosciusko County Against John H. Bass

On Account of the Burning of the Infirmary Near Warsaw.

Two Prisoners Found Guilty of Larceny—Two Divorce Suits Brought—Other Court News.

The commissioners of Kosciusko county, in this state, have brought suit to recover $25,000 damages from John H. Bass. The defendant furnished the heating apparatus for the new county infirmary building near Warsaw, which some time ago was destroyed by fire. The commissioners claim that the fire was the result of the defective heating apparatus put in the building by Mr. Bass, and hence the suit.

William Forsyth and Frank Gonzalus were on trial this morning for petit larceny, charged with stealing clothing at the Berghoff brewery. At noon the jury returned a verdict of guilty. The prison board will determine the length of their sentence in the penitentiary. John O'Niel, who was implicated in the same robbery, pleaded guilty before the trial began and he, too, will be given a prison sentence.

William Koes has brought suit in the superior court for divorce from Rosa Koes. The parties were married two years ago, but separated recently on account of the cruelty and drunkenness of the defendant. W. H. Shambaugh is attorney for plaintiff.

Hugh Keegan, as attorney for the plaintiff, has filed a petition in the superior court asking that his client, Mattie Tyler, may be given a divorce from William Tyler.

In the circuit court this morning the jury found Claude Moore guilty of being the father of the bastard child of Mary Weber. They fixed the amount that defendant should pay plaintiff at $300 for the support of the child.

Mrs. E. P. Williams Dies Suddenly in New York City.

Pneumonia Caused Her Death—William Logsdire, Dies at Ossian—The Deaths and Funerals.

Henry M. Williams today received a telegram bearing the sad tidings of the death of Mrs. E. P. Williams, the wife of his brother, which occurred at the Plaza hotel, New York city, last night. The conclusion is drawn that the deceased was one of many others who took a severe cold while witnessing the dedication ceremonies at the Grant monument, and the attack terminated in pneumonia which speedily proved fatal. The announcement of Mrs. Williams' death will be received with sorrow for she was well known in this city, where she was born and raised, and which she always considered her home. Her maiden name was Townley, and she was the daughter of one of Fort Wayne's foremost merchants in early days. Her age was fifty-five years. The remains will be brought to this city for interment.

OTHER DEATHS.

William Logsdire, a former member of Sion S. Bass post, G. A. R., died yesterday at Ossian. The funeral will be held Thursday at that place.

The funeral of Mrs. Frank Archer was held this afternoon.

The funeral of John Finlayson will be held tomorrow afternoon at 2 o'clock from the hall of Summit City lodge No. 36 A. O. U. W., which organization will have charge of the obsequies.

The funeral of the late Conrad Piepenbrink will be held Thursday afternoon at 1:30 o'clock from the family residence, and at 2 o'clock from St. Martin's church, in Adams township. Rev. Stock will officiate.

To the Public.

The treasury of the Relief Union is empty. What shall we do? We can discharge our agent, close the Relief Union office, the Industrial school, and the work room, and perhaps there will not be so very much suffering, as it will soon be warm weather. But what shall we do with the Home of Emergencies, and its helpless inmates, who have no other place to go?

THE announcement that King George is suffering from heart trouble which compels him to seek immediate change of climate may be intended as a graceful admission that he will have to leave Greece. We should say that he was suffering from conscience trouble instead of heart trouble. He used the crisis in the affairs of his country to speculate in Greek and Turkish bonds, with the result that his majesty has cleared from 30,000,000 to 35,000,000 francs. It is on this account, no doubt, that he thinks a change of climate will be beneficial to his health.

PRESIDENT MCKINLEY has fully made up his mind to curtail some of the extensions of the civil service rules made by Mr. Cleveland, but he lacks the nerve to do so until public opinion has been worked up a little on the subject. That is why members of his cabinet and other prominent officials are making public their opinions against those rules. Of course, everybody understands that the rules do not keep the present democratic occupants of the positions in office, but so long as they are in force they do operate to keep those republicans, who are not already in the government service, out of office. And that is the milk in the cocoanut. Promises have been made that have got to be kept and the only way to keep them is to withdraw the civil service rules from some of these places.

HEROIC DEEDS

Called Up in Memory by the War Between Greece and Turkey.

The Bravery of the Hellenes Has Been Attested on Many Hard Fought Battlefields.

The war between Greece and Turkey, accounts of which readers of THE SENTINEL have been scanning closely and interestedly for the last several weeks, brings into memory many of the events connected with the history of the heroic little nation which, as appearances seem now to indicate, will be compelled to be again crushed by the foot of the cruel and remorseless Turk.

Every foot of ground almost over which the contending armies march, to which allusions are made in dispatches from the seat of the war, has its classic memories and recalls deeds of heroism which stand forth in history as the most memorable upon its pages—deeds which attest the bravery of the ancestors of the brave people who are now struggling for freedom from the yoke which for so many centuries oppressed them.

The mountain passes through which the Turks a little over a week ago forced their way are the same that were traversed by the hosts of Xerxes on his way to defeat from the Greeks; the same through which Philip marched to Cheronea, through which the Roman legions poured to the conquest of the peninsula for the mistress of the sea; the same through which Alaric marched when he was scourging that part of the empire.

The renowned pass of Thermopylae was the place where Leonidas, with his brave band of 300 Spartan soldiers, had attempted to meet and drive back the immense Persian army, which at that time was invading Greece. When the battle came on Leonidas was the first to fall, but his heroic soldiers gathered around his body and the pass until, overpowered by the thousands of Persians who swept down upon them, all of them were killed except one man, who made his escape and returned to Sparta to tell the story. At the spot where these heroes fell their countrymen erected a monument with this inscription on it: "Go, traveler, to Sparta and say that we lie here, on the spot at which we were stationed to defend our country."

There is hardly a stone in Greece that is not a monument, hardly a craig that has not witnessed scenes to stir the blood of man, hardly a mountain road that has not been a battle-ground, hardly a meadow that has not been fought for in a score of wars. The roads over which the present Greeks marched to the front were the roads once trodden by Epaminondas, and Pericles and Themistocles, and the heights from which the Greek scouts of the present watched the Turkish horse are the same heights on which the Greek pickets stood when Darius and Xerxes marched into Greece with their millions only to be driven out again.

When Xerxes 2,378 years ago moved down through Macedonia around Mount Olympus and through Elassona and Larissa to invade Greece he met no opposition in the mountain passes, so recently the scene of furious conflict. It is said his army was the largest ever assembled, numbering with those on the fleet over 2,000,000 men. Threatened by land and by sea by these tremendous forces, Greece was not overwhelmed. The Greeks did not yield and in the end the Persians were defeated. The fighting was not in the mountain passes, not in Thessaly, but farther south, where great battles were fought and great fleets destroyed.

It was on the plains of Pharsalia in Thessaly where the great battle between Ceasar and Pompey, the rival generals who divided the vast Roman empire into two hostile camps, was fought and which ended in the victory of Ceasar and the fleeing of Pompey to Egypt, where he was slain by the order of the Egyptian king, Ptolemy, who hoped thereby to secure the favor of Ceasar.

A volume would not exhaust the deeds of bravery called up by the names which, on account of the present Turkish invasion, have once more become prominent. There is Marathon and Salamis and Platae and Artimesia and Mycale—all standing as monuments of Grecian heroism in ancient times. Nor do all the memories of the peninsula cluster around these early times, for there is Lepanto where in 1571 the Turks met a crushing defeat, and Navarino where the Turkish naval power was destroyed, and Missolonghi where Marco Bozzaris fell in 1820, when the Greeks arose against the Turks.

It is the story of the heroism and death of Marco Bozzaris and the bravery of the Greek soldiers who fought during the memorable rebellion in which he lost his life that proves that the modern Greeks are worthy descendants of the men who fought at Marathon and Thermopylae. With 400 men he assailed at midnight and drove back the Turkish army of 14,000. He had pushed his little band of heroes into the camp of the enemy and taken the Turks by surprise. In the midst of the attack Bozzaris, pierced by two bullets, fell in death, but his followers continued the battle and at daylight they found themselves undisputed masters of the field, leaving the ground covered with 3,000 infidel dead, while the Greek loss was only thirty killed and seventy wounded.

How well I recall Halleck's poetical account of this hero's death, and how well those who were school boys twenty years ago and those who are schoolboys now recall it, for many of them have declaimed it from the school platform, and in this connection I may produce it as interesting reading:

At midnight in his guarded tent
  The Turk lay dreaming of the hour
When Greece, her knee in suppliance bent,
  Should tremble at his power.
In dreams through camp and court he bore
The trophies of a conqueror—
  In dreams his song of triumph heard,
Then wore his monarch's ring,
Then pressed that monarch's throne, a king,
As wild his thoughts and gay of wing
  As Eden's garden bird.

At midnight in the forest shades
Bozzaris ranked his Suliot band,
True as the steel of their tried blades,
  Heroes in heart and hand.
There had the Persian's thousands stood,
There had the glad earth drunk their blood
  In old Platæa's day.
And now there breathed that haunted air
The sons of sires who conquered there,
With arms to strike and souls to dare,
  As quick, as far, as they.

An hour passed on. The Turk awoke.
  That bright dream was his last,
He woke to hear his sentries shriek:
"To arms! They come! The Greek! The
    Greek!"
He woke to die, mid flame and smoke
And shout and groan and saber stroke
  And death shots falling thick and fast
As lightning from the mountain cloud.
And heard with voice as trumpet loud
  Bozzaris cheer his band:
"Strike till the last armed foe expires!
Strike for your altars and your fires!
Strike for the green graves of your sires!
  God and your native land!"

They fought, like brave men, long and well,
  They piled the ground with Moslem slain,
They conquered, but Bozzaris fell,
  Bleeding at every vein.
His few surviving comrades saw
His smile when rang their proud hurrah,
  And the red field was won;
They saw in death his eyelids close
Calmly, as to a night's repose,
  Like flowers at set of sun.

The story of the Grecian glory would not be complete without an allusion to the career of Alexander the Great. He was the hero of the Greeks in ancient times. He was the king of Macedon. He headed an army of countrymen and made an excursion for conquest and glory into Asia and became master of all that quarter of the globe. He was but thirty two years of age when he died and, as he was but twenty when he began his career, he was only actively engaged for twelve years in accomplishing the work on which rests his fame, and yet so brilliant was his life, so bold and romantic his exploits, so magnificent and splendid all his achievements, that the world for more than twenty centuries has held him up as a hero and read the story of his deeds with interest and admiration. His was a kingdom about twice the size of the state of Massachusetts and yet with an army gathered in that small kingdom he crossed the boundary between Europe and Asia and carried on a military invasion into the very center of the Persian domains, destroying Asiatic armies, conquering splendid cities, and defeating or taking captive kings and princes and generals who sought to oppose his progress. The whole world looked on with wonder to see such a course of conquest, pursued so successfully by so young a man and with so small an army gaining continual victories, as he did, over such vast numbers of foes and making conquests of such accumulated wealth and territory.

After his death the mighty empire which he had so suddenly built up was as suddenly broken to pieces and the Grecian states again became subject to civil dissensions which were terminated by the subjugation of all Greece to the dominion of the Romans in the year 146 before Christ. With the loss of her liberties the glory of Greece passed away and almost ever since then she has been the prey of nations which sought to add power to their domains by conquest, passing under the control of the brutal and tyrannical Turks during the wars which raged from 1204 to 1453.

But although the Greeks were downtrodden by the Turks for the four centuries since that time the merciless hoofs of the despotic nation has not entirely tramped out the sturdy spirit of independence that has characterized those brave and heroic people for ages. This was evidenced when in the early part of this century, in 1822, they fought the Turks and won independence for their nation. The two years' struggle which gave to Greece the right to look Europe in the face as a noble people, determined to die rather than live the slaves of tyranny, gave to the world the assurance that Greece was living Greece again.

GUY HAMILTON.

Men and women dig and delve their lives away in order to pile up gold with never a thought of the most precious endowment a human being may have, good health. What does it profit a man to heap up riches if in doing so he ruins his health and his capacity for the enjoyment of wealth. There is no such thing as happiness without health. All the gold in the world will not make a man happy, who feels in his veins and sees in the reflection of his own face, the slow but sure advance of man's deadliest enemy, consumption.

If a man will but take the right care of himself and the right remedy he may protect himself against this relentless enemy. Dr. Pierce's Golden Medical Discovery is not only a sure preventive, but an absolute cure for consumption. It cures 98 per cent. of all cases. It acts, through the blood, directly on the lungs. It drives out all disease germs and impurities. It is the great blood-maker and flesh-builder. All wasting diseases yield promptly to its action. Thousands have testified to its merits. Druggists sell it.

"I want to express my heartfelt thanks for Dr. Pierce's valuable medicine," writes Mrs. Rufus Bell, of Wise, Monongalia Co., W. Va. "My eldest daughter, a girl of 15, caught cold and we had the best doctors but could get no lasting relief. Oh, how she suffered! Often I have heard her pray for death to end her sufferings. I bought one bottle of each of Dr. Pierce's Golden Medical Discovery, 'Favorite Prescription,' and 'Pleasant Pellets.' Before our daughter used half the medicine her cough was all gone, and she was on the high road to health—which means to happiness."

Rosy cheeks. The rich, pure, red blood of health makes them. Keep the blood pure and you will have them. Constipation causes impure blood. Dr. Pierce's Pleasant Pellets cure it promptly and permanently and never gripe. They are purely vegetable and perfectly harmless. No other pill acts so naturally and perfectly. Druggists sell them.

OUR FIRST DEFEAT

By the Help of No Good Umpire O'Connor.

With All His Bad Breaks the Game With Youngstown Was Interesting—Wheeling Comes Next.

	Won.	Lost.	Per cent.
New Castle	2	0	1000
Fort Wayne	3	1	.750
Mansfield	2	2	.500
Springfield	2	2	.500
Dayton	2	2	.500
Wheeling	2	2	.500
Toledo	1	3	.250
Youngstown	1	4	.200

"Not by right nor by might," but by the "rocky" umpiring of Kid O'Connor, of Youngstown, Cook's Colts met their first defeat in the Inter-State league at Lakeside park yesterday afternoon, with the Youngstown Yanigans. His work was of such a "yellow" order that Manager Meyer owes it to the patrons of the game to see that such breaks do not occur again, or it will greatly interfere with the patronage. "Hogan's Alley" club could furnish plenty of players that could give this slender youth pointers on base ball umpiring. The Colts put up a snappy game from start to finish and one that would have won out but for O'Connor.

Wayne did the honors in the box for the Colts and met the expectations of his friends and admirors and had he been given fair treatment by the umpire the game would have been ours. Brodie twirled for Youngstown and the Colts soon solved his delivery, every man in the team making one or more hits off him except our usually sure hitting third baseman, Haggarty, who failed to connect. Youngstown's center fielder is credited with five put-outs, while the left fielder had six, showing that the stick work of the Colts was good.

The following is the score:

Fort Wayne...1 0 0 0 0 0 1 1 0—3
Youngstown..0 0 0 0 1 0 0 4 0—5

Hits—Fort Wayne, 12; Youngstown, 11. Earned runs—Fort Wayne, 2; Youngstown, 4. Two-base hits—Robinson, McKevitt. Three-base hits—Campbell, Musser. Double plays—Steen to Brodie to Hoffmeister. Bases on called balls—Off Wayne, 2. Hit by pitched ball—By Wayne, 1. Struck out—By Wayne, 2; by Brodie, 1. Sacrifice hits—Steen, Zinram. Time of game—2:00. Umpire—O'Connor.

INTER STATE GAMES YESTERDAY.

TOLEDO, Ohio, May 5.—Toledo bunched errors at critical times and played a loose fielding game. Brown, a new left-handed twirler for Toledo, was erratic and awkward in fielding. The score:

Wheeling....1 1 0 0 0 4 0 3 *—9
Toledo......0 0 1 0 0 0 2 3 7—5

Base Hits—Toledo, 3; Wheeling, 9. Errors—Toledo, 5; Wheeling, 1. Batteries—Brown and Arthur for Toledo; Easton, Coyle and Messett for Wheeling. Umpire—Holden.

DAYTON, Ohio, May 5.—Dayton lost to Mansfield because Rosebrough was too wild, giving eight men bases on balls and hitting two. The score:

Dayton......0 0 4 1 0 2 0 0 *— 7
Mansfield....0 3 0 0 2 1 0 0 3— 4

Base Hits—Dayton, 11; Mansfield, 9. Errors—Mansfield, 6. Batteries—Rosebrough and Weand for Dayton; Whitson and Lynch for Mansfield. Umpire—Obrien.

SPRINGFIELD, Ohio, May 5.—On account of muddy grounds the New Castle-Springfield Inter-State league game was declared off.

New Castle at Springfield.
Wheeling at Toledo.

NOTES.

King is credited with a hit and six put-outs.

Today will be the last game with the Youngstowns.

Captain Cooke had on his batting clothes yesterday.

Right Fielder Cooper was fined $10 for back talk to the umpire yesterday.

Catcher Campbell, besides knowing how to play backstop to perfection and also to throw to second, can do some handy stick work.

Wheeling will be here tomorrow for four games. As the Nailers are putting up a good game and are out to win, they will draw a large crowd.

Rickert, the former Fort Wayne player, but who now plays left for Youngstown, was in the game yesterday and made some sensational fly catches.

Mansfield News: "The newspaper correspondents and the scores in some of the Inter-State league cities should get together and hold a convention. Their ideas as to base hits and errors do not correspond."

New Castle Courant Guardian: "It must be gall and wormwood for Manager Strobie, of Toledo, to lose three straight to Fort Wayne. Five players who were not fast enough for Toledo, were released and signed by Fort Wayne, and they took no small part in defeating Toledo. No, Fort Wayne is 'not a Toledo farm.'"

The Inter-State league clubs will contend for a handsome cup in the championship season this year. The cup will be awarded under the same conditions as the Temple cup in the National league—that is, the two best league clubs will play a series of games to decide which shall keep the trophy for the ensuing year. The donor of the cup is John A. Spinney, of Sixth street, Cincinnati. It is valued at $300 and is made of silver with gold inlaying.

SCIENCE OF HOME-MAKING.

Why so Successfully Studied and Practiced in California.

In selecting a place in which to build up a country home there are three prime considerations: The original cost; the amount of money and time required to make the place productive, and most of all, the comforts to be easily had when fairly established—not finished, for a home in its wider sense is rarely finished.

In all of these particulars California justly claims pre-eminence. Especially is this true when small, homey homes are considered, homes in which comfortable and independent lives may be spent. Gardening and horticulture in its various branches afford the best opportunities for such homes, and these must in the end be largely the pursuits in the state.

At the present ruling price of land less money will procure land enough to support a family well than in any other part of our vast country. There are in the state thousands of families earning a good living, with all the necessaries and many of the luxuries of life, and with something laid by each year for a "rainy day," on tracts of from ten to twenty acres. Many thousand acres of such land, still unoccupied or poorly farmed, are now on the market at very reasonable prices, say from twenty to one hundred dollars per acre according to location and surroundings.

So fertile is the soil and so genial the climate that a place becomes productive in an almost incredibly short space of time. Something may be realized even the first year, while the third or fourth year will bring an income,—an income to be increased from year to year for many years. This result, of course, presupposes intelligence and industry, but these are necessary to success in any undertaking.

But it is in the third consideration that the great advantages of California become most apparent. A soil quick and fertile responding generously to good culture, a climate where cyclones and tornadoes are unknown and where sunstrokes and rabies never occur, and where for nearly the whole year it is a luxury to live in the open air,—the finest climate in the world in which to rear a family of healthy children,—these are certainly great attractions.

During most of the year the table may be supplied with fresh fruits and vegetables, all of home raising. The fig, the vine, the olive, the peach, the apricot and the nectarine all bear abundantly almost everywhere, while much of the State will produce citrus and other subtropical fruits with but little care. That the necessaries of life can be easily produced goes without the saying and it is undoubtedly true that a family of only moderate means may here easily enjoy those luxuries that only the wealthy can have in other localities.

With reasonably good judgment in selecting the land, and the knowledge that the experience of the last twenty years has made almost common property in regard to what shall be planted and how it shall be cared for, industry and economy, the elements of thrift, can but secure results that must be in the highest degree satisfactory. Send to W. G. Neimyer, General Western Agent, Southern Pacific Co., 238 Clark street, Chicago, for literature descriptive of California.

Stop! Women,

And Consider the All-Important Fact,

That in addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician—male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides, a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman, whose knowledge from actual experience is greater than any local physician in the world. The following invitation is freely offered; accept it in the same spirit:

MRS. PINKHAM'S STANDING INVITATION.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer of assistance.—Lydia E. Pinkham Medicine Co., Lynn, Mass.

SHOP AND RAIL.

The Machinists at the Pittsburg Put on Short Time.

The Nickel Plate Accused of Violating Its Agreements—Affairs at the Depots and Offices.

The men employed in the motive power department of the Pittsburg shops will hereafter work five hours per day, instead of eight, as had been the rule for some months. The order for this reduction of working hours was issued this morning and it affects about 200. Business on the road is very light and to this cause is attributed the retrenchment move. The men in the car department and lumber yards will continue to work eight and ten hours per day.

Another firm which has found it necessary to reduce shop expenses is the Anthony Wayne Manufacturing company. The number of employes in its factory has been reduced and the working hours of those remaining has been cut down from ten to nine. This firm kept a full force of workmen employed ten and twelve hours per day during the entire winter and spring. Their business is never very great in the summer and they usually reduce their shop force during that season.

PAID COMMISSIONS.

The other lines in the Joint Traffic association have a grievance against the Nickel Plate which will be settled by the association. It appears that the Nickel Plate has been engaged in paying commissions to western agents. This offense makes that company liable to a fine of $5,000 and in this case the fine will be assessed. The charge against the Nickel Plate was filed by one of the "strong" lines and is that the accused company has already paid commissions for the period between April 15 and May 1, a representative of the company taking a private car and going all over the western country and settling in cash, without taking any receipt, with the ticket agents who had favored the road with business. Since that time instructions have been sent to the agents that the car would not make any more trips, but that commissions would be paid by check, likely made out in a fictitious name, but when such was received the agents would know that it was in settlement for Nickel Plate commissions. Somehow one of the strong lines got trace of the movements of the special car and sent their traveling passenger men trailing after it and secured evidence sufficient to hang the Nickel Plate, so to speak. This evidence has now, it is stated, been placed in the hands of the board of managers.

BRIEF MENTION.

A. Wilson, a storm fitter, is sick.

Fred Fuehling, a heater in the Boss blacksmith shop, is sick and off duty.

The shop clerks of the Pittsburg have decided to postpone their ball game, which had been set for next Saturday.

Blacksmith Henry Dryer, of the Pittsburg shops, has recovered from an illness which kept him from work a week.

Mrs. C. H. Rice, wife of the Nickel Plate brakeman, has recovered from an illness and he has resumed his train duties.

George Graham, a painter, has been transferred from the locomotive to the passenger department of the Pittsburg shops.

Thomas Shovlin, boss of the laboring gang in the Pittsburg machine shop, attended a wedding of a relative at Monroeville last night.

Fred Lugeman, the boilermaker, will put in his spare time in raising garden truck. Today he is moving upon a little farm out on Schrack street.

The Pittsburg, Bessemer and Lake Erie, which was built as a coal road, already has six passenger trains running over the portion of the road now built.

East-bound shipments from Chicago last week were 54,060 tons, against 52,055 tons for the preceding week and 53,830 for the corresponding week of last year.

William Borner, division freight agent of the Pittsburg, is making a trip on a special train over the line. He will arrive in this city at 6 o'clock this evening from the east.

The Indiana, Decatur and Western will this week receive ten miles of new steel rails, weighing seventy-two pounds to the yard, which will at once be placed in track, and in June or July will receive ten miles more. A large number of ties are now being placed under the track.

Albert Haberkorn, an apprentice in the Wabash shops, has recovered from his recent illness.

The Wabash carried a number of people to St. Louis today, the attraction being the Quadrennial turnfest.

Superintendent G. L. Potter left last night for New York, where business for the company will detain him several days.

B. J. Johnson, night watchman at the Bowser oiltank works, is able to resume his duties. He was a victim of the now very popular epidemic, "German measles."

John Rapine, yard conductor at the Pittsburg, is nursing a lame foot, which promises to keep him from work a few days. The member was injured by a scantling falling upon it.

The passenger station at Baltimore which the Baltimore and Ohio is erecting, to take the place of the old Camden station, will be completed by June 1, and will cost the company $100,000.

Twenty-five years ago today Mr. and Mrs. I. Wise were married and this evening they will celebrate their silver wedding in an appropriate manner. Mr. Wise is foreman of the Pittsburg tank shop.

Indications are that the roads in the Ohio Coal Traffic association will maintain freight rates until July 1. If they do the coal operators in Indiana will have a better chance of disposing of their product at living prices.

William Garstang, superintendent of motive power of the Big Four, has gotten up a fire hose ladder to be used in carrying fire hose over railroad tracks so that trains need not be delayed by hose being laid directly upon the track.

The estimated gross earnings of the entire system of the Chicago, Rock Island and Pacific Railway company for the month of April, 1897, are $1,120,711, a decrease as compared with estimated earnings of April, 1896, of $10,337.

Mrs. Andrew Koons, widow of the late Pittsburg passenger engineer who died last winter, has received $3,000 from the insurance branch of the Brotherhood of the Locomotive Engineers in payment of a life policy held by the deceased.

Yesterday C. Bigelow, Nickel Plate brakeman, was summoned to Lima by a telegram stating that one of his children was dangerously ill. Mr. Bigelow still retains a residence in Lima, though he has worked on the Nickel Plate for some time.

Last week 58,000 shares of the Louisville and Nashville were sold, and there is much speculation as to who is purchasing so largely of this stock. In the two weeks preceding the sales of the stock were large, but not so extensive as last week.

The West Shore company practically abandoned its shops at Frankfort, N. Y., on May 1, and the machinery has been shipped to Depew or the shops at West Albany. This change takes 195 men and their families, if they choose to go, to the places named, but a number will remain owning homes there, and will seek other employment.

There has been a change in the funeral arrangements of the late John Finlayson. The body will be taken to Summit City hall, corner of Calhoun and Superior streets, where exercises will be held tomorrow afternoon, at 2 o'clock, under the auspices of the A. O. U. W., Rev. J. L. Looper, officiating. The Knights of Pythias will also be in attendance and participate in the sad rites at the hall and grave.

W. J. Van Arsdale, for twenty-five years a claim agent for the New York Central lines, on Friday suffered a severe paralytic stroke, which terminated fatally in a few hours. He had been in the employ of the company forty-five years and was one of the late Commodore Vanderbilt's confidential advisers. He drew up the merger agreement between the New York Central and the Hudson River Railroad companies when those lines were consolidated.

E. St. John, vice president of the Seaboard Air-line, has fitted up a fine room at the Nashville exposition and has extended the newspaper fraternity the courtesies of the premises. The invitation says: "It will be a nice, cool place, where you can have a quiet corner all to yourself to write, and we want you to understand this is not an ordinary formal invitation, but a downright, old-fashioned request for you to make one building your headquarters, just as though you had put it up for your own use."

RATES TO HOTEL MEN'S CONVENTION.

The board of managers of the Joint Traffic association have fixed upon the rates for the convention of the Hotel Men's Mutual Benefit association at Boston in June. The fare for the round trip from Chicago to Boston will be $22 via. the standard lines, $20.50 via the standard lines going and returning over the differential lines, and $19 via the differential lines both going and coming. The movement of the business is to be made by special trains, leaving Chicago about June 6 and leaving Boston on return about June 12.

CATARRH OF THE STOMACH.

A Pleasant, Simple, But Safe and Effectual Cure for It.

Catarrh of the stomach has long been considered the next thing to incurable. The usual symptoms are a full or bloating sensation after eating, accompanied sometimes with sour or watery risings, a formation of gases, causing pressure on the heart and lungs and difficult breathing; headaches, fickle appetite, nervousness and a general played out, languid feeling.

There is often a foul taste in the mouth, coated tongue and if the interior of the stomach could be seen it would show a slimy, inflamed condition.

The cure for this common and obstinate trouble is found in a treatment which causes the food to be readily, thoroughly digested before it has time to ferment and irritate the delicate mucous surfaces of the stomach. To secure a prompt and healthy digestion is the one necessary thing to do and when normal digestion is secured the catarrhal condition will have disappeared.

According to Dr. Harlanson the safest and best treatment is to use after each meal a tablet, composed of Diastase, Aseptic Pepsin, a little Nux, Golden Seal and fruit acids. These tablets can now be found at all drug stores under the name of Stuart's Dyspepsia Tablets and not being a patent medicine can be used with perfect safety and assurance that healthy appetite and thorough digestion will follow their regular use after meals.

Mr. N. J. Booher, of 2710 Dearborn St., Chicago, Ill., writes: "Catarrh is a local condition resulting from a neglected cold in the head, whereby the lining membrane of the nose becomes inflamed and the poisonous discharge therefrom passing backward into the throat reaches the stomach, thus producing catarrh of the stomach. Medical authorities prescribed for me for three years for catarrh of stomach without cure, but today I am the happiest of men after using only one box of Stuart's Dyspepsia Tablets. I cannot find appropriate words to express my good feeling. I have found flesh, appetite and sound rest from their use."

Stuart's Dyspepsia Tablets is the safest preparation as well as the simplest and most convenient remedy for any form of indigestion, catarrh of stomach, biliousness, sour stomach, heartburn and bloating after meals.

Send for little book, mailed free, on stomach troubles, by addressing Stuart Co., Marshall, Mich. The tablets can be found at all drug stores.

WHERE MINES GROW.

Of late years silver production has outstripped gold. A different condition of affairs exists in the now renowned Kootenai country. While silver predominates in some localities there, yet the streams have placer gold in paying quantities, and at Rossland, in the Trail district, gold is king. Copper and iron are found and coal also, at some places.

The recent development of this region and of that contiguous thereto in Washington, has been phenomenal. Mines of exceeding richness, from the grass roots down, have been opened all over the mountains; railroads have been built into and through the country; steamboat lines on the lakes and rivers have been increased and expanded, and towns sprung up as if by magic.

The country is good for rich or poor, the climate is mild and bracing, and the scenery grand beyond description.

Among the prominent mining camps are Rossland, Nelson, Ainsworth, Kaslo, Slocan, Salmon River, Cariboo and Deer Park.

The mountains are well timbered, rendering fuel cheap, and living expenses are reasonable.

Smelters are located at several points contiguous to the mines.

The year 1896 witnessed a wonderful emigration to the Kootenai country, and it will be eclipsed by the record of 1897.

The direct route to this land of gold, from the east, is via the Northern Pacific railway to Spokane, Wash., and Spokane Falls and Northern railway from that point north.

West of the Rossland region lies the Boundary Creek country—practically a continuation of the former—of very rich promise but as yet of meagre development. South of the Boundary line, in Washington, is the "Reservation" country, a land also of promise.

A full description of the Kootenai region can be obtained by sending to Chas. S. Fee, Gen. Pass. Agent, N. P. Ry., St. Paul, Minn., for their new Kootenai Folder and elaborate relief map. This is the best map published of the Kootenai. m20-tf
